And finally two additional highlights for 2020/21 include:

- ***Two supplementary catalogues** - in addition to this main catalogue - **American** and **Christmas** - and as a reminder Christmas orders will need to be placed by the end of May 2020, so please speak to one of our sales team for more details.*

NEW THIS YEAR

This year, we continue to innovate and are proud to expand into the frozen category! Frozen food has soared in popularity since Veganuary. As a response to this trend, we are excited to bring a nutritious range of frozen plant-based meals with Gardein and Sophie's Kitchen. In addition, we are adding Lowy; a delicious vegan mayonnaise range that is approved low FODMAP*. We are also introducing more flavours with the Saag Aloo from Soul, a popular traditional Indian dish and 5 original Thai Taste products such as the spicy and tangy Thai Chilli Jam dip. To help maximise your sales, we are launching household brands such as Schwartz, WW, Loyd Grossman and Francine and 4 new products from Mrs Elswood namely Beetroots and Sliverskin Onions.

*FODMAPs are indigestible sugars derived from a range of grains, fruits and vegetables.

NEW CATEGORY - FROZEN: This year we've introduced a whole new category dedicated to our vegan frozen range...find out more, page 64

Our growing vegan range...

The UK continues to be the world leader for vegan food launches and according to market expert Mintel, one in four product launches in the past year were labelled vegan. Volume and value sales grew by 26% and 40% respectively over 2014-19 and are expected to continue growing in the next 5 years. The flexitarian trend, prompted by health, ethical and environmental concerns, has underpinned this growth.

We aim to follow trends and meet the needs of all types of consumers, that's why we are proud to have an extensive range of vegan products and pride ourselves in having a portfolio of food and drinks that cater to all types of diets. At EBF we understand plant-based diets are now a settled lifestyle for UK consumers, that's why we made sure to identify which ones are suitable for your customers' special dietary requirements.

Introducing high quality vegan and plant-based brands to the UK.

Catering for the Food Service sector.

Looking across the pond to our smokey, tangy and BBQ ranges from USA where we have both back of house and tabletop ranges to suit your Americana needs. We have also included many of our European staples from food-to-go French lemonades and the UK's Number 1 Pickled cucumber Mrs Elswood which can be used for burgers and deli sandwiches or why not try Frickles, a deep-fried pickle, for an ultimate street food option!

For almost 30 years we have been selecting and developing brands and products in line with consumer trends and market data to bring consumers a range of products to satisfy and intrigue in the retail environment. This year we are growing our food service selection in line with changing tastes, innovation and focusing on growing your breadth of choices, whilst still offering exceptional value, authenticity and product quality.

As with our retail ranges, we follow our same ethos of bringing you and your customers indulgent flavours from around the world, whether they are after authentic oriental dishes like Thai Jungle curry or Massaman made using our Thai Taste range that is made in Thailand to local recipes. Last year the CGA report* noted that Thai restaurants and Thai cuisine offered in managed restaurants has more than doubled in the last 5 years with consumers losing favour for Chinese.

This year we are excited to bring you our new Plant-based frozen range to food service, which tailors to the ever-growing number of consumers looking to reduce meat consumption whilst still receiving a high protein alternative.

Gardein's Fishless Filets are perfect alternative to fish & chips as a plant-based option. To find out more, see pages 66 - 67.

Thai Taste

This year we extended the Thai Taste range by introducing 5 new meal kits to increase shoppers' options for an easy, street-food style, cooking experience. By following trends in the meal kit category, we bring a starter, main and dessert option that requires little time and effort for preparation but delivers authentic, flavour-filled Thai dishes for the dining at home option. Our new meal kit range includes Thai Chicken & Cashew Noodle Kit, Thai BBQ Skewers Kit, Chilli & Holy Basil Stir Fry Kit, Tom Yum Soup Kit and a dessert like no other, Thai Coconut Sticky Rice with Mango Kit.

We also converted all our kits from plastic outer packaging to cardboard outer packaging. This reduced the plastic content of our kits by over 75%! We're proud to be launching our new kits in plastic-free packaging! This reduction in plastic has also resulted in a reduction in the pack footprint. The kits range will now take up a third less space, ultimately allowing for a broader range on shelf!

We also have an addition to our dipping sauces with our new Thai Chilli Jam (Nam Jim). This condiment is perfect as a dipping sauce, or even a marinade, bringing extra heat and natural saltiness from the addition of fish sauce as an ingredient.

Discover the mellow warmth of Japanese curry from S&B Foods and one of Japan's best kept culinary secrets.
Japanese curry is not as pungent as its Asian counterparts, which are often characterized by a few outstanding spices. Instead, it is a relatively mild and harmonious blend of curry powder and spices in which no particular ingredient stands out, because it contains flour, the sauce is comparatively thick. These underlying characteristics have not changed much over the last 150 years, but subtle variations have resulted in a wonderfully complex Japanese curry culture that S&B is proud to introduce to the world.

When Sushi Chef® was founded, in 1982, Japanese food had just begun to catch on in America. Yet while Japanese restaurants had begun sprouting up around the country, few understood the history and techniques behind Japanese food, nor was it easy to source Japanese ingredients to use at home. Thus, Sushi Chef® was born, to help make Japanese food even more accessible. Ever since Baycliff Company was founded, its unswerving goal has been to provide Japanese food products of the highest quality. Sushi Chef® products are made using only traditional Japanese methods. Their range includes the famous Sushi Making kit as well as a full range of products to enjoy Japanese flavours at home.

Fallot was founded in Burgundy in 1840 and till this day continues to be a family owned business. In fact, "La Moutarderie Fallot" is the last independent mustard mill in the region. Their production process respects the French tradition of mustard making and still follows each step carefully to ensure the best quality product is obtained from their factory. Moreover, to maintain the authenticity and intense flavour of French mustard, the seeds are still grounded in traditional grindstones. But just like any experienced chef, they combine that know-how with high quality raw ingredients to bring sophisticated and innovative flavour combinations to your customers table.

New for 2020, Mrs Elswood has launched Pickled Beetroot Wedges and Silverskin Onions to add to its range of pickled vegetables! The new products come in flavoursome tangy and spicy varieties. Your customers will love snacking on these healthy, crunchy treats or enjoy them in a burger or a salad. These four new products are set to be a hit with consumers, following the iconic Mrs Elswood range and its successful position as the #1 pickled cucumber brand in the UK. A year-on-year growth of 22.1% makes Mrs Elswood a must-stock shelf item compared to other pickled vegetable brands.

Schwartz have been sourcing the finest quality herbs and spices since 1889 from over 40 countries worldwide. From herbs, seasoning blends, spices and sauce mixes, your customers will be able to create a wide variety of flavoursome dishes. When it comes to adding a pinch of flavour, salt is the go-to key ingredient. However, not all salts are the same. Diamond Crystal Kosher salt has a delicate texture, fragile enough to smooth with fingers. It is naturally low in sodium and provides the perfect flavour.

The new range from WW (formerly Weight Watchers) uses no artificial preservatives and includes tortillas, wraps and naan breads that can be enjoyed on any occasion.

FOODS BESPOKE

A Passion to Create Delicous Food.

Bespoke goose and duck fat were inspired by consumers in quest of the most delicate, silky and savoury roast potatoes. Bespoke goose and duck fat are made at the highest standard and the birds are allowed to feed freely.

The 'treat-size' eggs are hard-boiled. Consumers can use them for canapes, cut in half and serve them with salmon roe or creme fraiche and avruga caviar. They can also be fried and used as a garnish for a pigeon, quail breast or for more creative meals, they can be served with Eggs Benedict.

Using a traditionally French recipe, Bespoke Cassoulet is a hearty, tasty casserole made with duck confit, white kidney beans and sausages from Toulouse.

Refreshing – naturally! La Mortuacienne is a range of traditional French lemonades first created in 1921 in Morteau, France.

Almost 100 years on, these refreshing and delicious lemonades are still produced in the purest tradition (with local water, natural flavourings and sugar) by 4th generation family members who know the perfect balance: slightly sweet but refreshingly tart, with hints of lemon and lime, and plenty of delicate bubbles.

AMARETTI DEL CHIOSTRO

Amaretti biscuits are said to have been created in 18th-century Italy, for a visiting cardinal, by the Lazaronni family. Available in crunchy or soft formats, they are a tasty tradition from Italy. They are produced by slowly baking a blend of sugar, apricot kernels and egg whites and are decorated with sparkling white sugar and wrapped in colourful paper wrappers.

UK customers love biscuits, and authenticity, so these will be ticking all the boxes!

CHIOSTRO DI SARONNO

Chiostro Di Saronno products are distinct in shape and taste. The panettone is the speciality Christmas cake of Italy with an ancient and noble tradition. Technically it is a type of sweet bread loaf made during a long process that involves the curing of the dough, which is similar to sourdough bread. The prooving process alone takes several days, giving the cake its distinctive fluffy characteristics. It contains candied orange, citron, and lemon zest, as well as raisins, which are added dry and not soaked. Many flavour variations are available such as chocolate, but all panettones are Christmas favourites, adored by consumers. This brand has all the flavour, tradition and authenticity needed to be a top Christmas seller.
